Environmental Committee Meeting Minutes 7/21

Membership/Recruitment

We came to an agreement we need to initiate our recruitment process. Danielle will be writing a letter and as a committee we will give input through email. Kim will find the contacts for the bargaining units.

We would like the first meeting next semester to be more of a “meet and greet” rather than an official meeting. This will be discussed further and a date needs to be decided on by the end of September to begin working by October. It was discussed to have two meetings a months instead of one.

We have agree upon getting at least two representatives from each bargaining unit, three faculty members, and three students. Besides the three students we will be asking Matt our new MSSA President to appoint two people from MSSA.

Committee Chair

No one came out about being chair so we may wait off on this until we have more representation and we can do a voting process. There was discussion about still having a chair and a co-chair.

Events/Welcome Week

Events we will be attending our Welcome Week event that will be August 19th from 10am until 11am. A room will be announce. The agenda will be much like last years. We will not be discussing Student for Sustainability since there will not be a group next semester. We will be adding a Bike Friendly University section. People who are available on this day should attend and feel free to discuss.

The “meet and greet” will be one of our first meetings. We would like to be running and working with more representation by the end of November. We will continue discussing more events we can hold as a group to increase sustainable awareness on campus and introduce our committee to the campus community.
