I. **Approval of Funds for Jamie Jacquart Speech**
   The Environmental Committee will host a presentation by Jamie Jacquart on Tuesday, March 20. Major expenses to bring Mr. Jacquart in are $1500 for his honorarium and expenses; possibly $600 to have the presentation videorecorded by Mav Visual Productions; approximately $100 for posters; approximately $100 for technical support; and possibly other minor expenses. Cowan moved, Olson seconded, to approve up to $2500 for expenses. Motion passes.

II. **Composting in CSU Approval**
   Olson reported that University Dining Services is planning how to compost food waste at the CSU. Food waste will be collected at the CSU; just from the kitchen for now. The collected food waste will be taken to the University Dining Center where it will be stored and hauled to the composting site along with the University Dining Center food waste.

III. **Recyclemania and Game Day Event**
   The Game Day event this year was the February 10 men’s and women’s basketball games. Olson reported that volunteers collected 162 pounds of trash and 210 pounds of recycled materials (125 pounds of which was cardboard) at the event. The diversion rate (pounds of recycled material divided by the total of trash and recycled) was 65.7%, compared to 72.4% last year. Per capita amounts were also calculated.

IV. **Other business**
   a) **Environmental Committee funding**
   It is likely that the Committee will be getting an annual donation from the book store starting next year.

V. **Reports**
   a) **Marketing Subcommittee**
   Carlson distributed a draft post card for the committee to review. The response was very favorable. There was much discussion about the content of the postcard and the intended audience. The post card was referred back to the Marketing Subcommittee for further discussion. Carlson suggested a rollout date of either September 1st or June 1st for the promotional material.

Meeting adjourned at 12:30 pm.

Respectfully submitted:
