\$1,000 Scholarship Opportunity

Chester and Helen Carkoski SCHOLARSHIP AWARD

The Carkoski Scholarship Award program was established to recognize residence community student leaders with a good academic record and who have demonstrated volunteer leadership and service in the residence communities.

- All undergraduate student leaders living in the residence communities both fall 2021 and spring 2022 are eligible to receive the award.
- Scholarship award qualifications found online at mnsu.academicworks.com/opportunities/17152.
- Primary emphasis for deciding on a recipient of the award is placed on residence community involvement/leadership and contributions. Secondary consideration is given to campus or community involvement.

Any residence community undergraduate student may be nominated except for Community Advisors and Learning Community Coordinators. The endowment committee believes that these staff members are valuable assets to the housing system, but this award is intended for student leaders who do not receive any financial compensation for their efforts.

Two awards will be presented. Each award will be \$1,000.

MINNESOTA STATE UNIVERSITY, MANKATO

Completed applications must be submitted by December 1, 2021.
