## First Day™

Our newest initiative! We work with interested professors to provide digital course materials directly to students through D2L on the first day of class. The cost is included in the course tuition and fees at a significant savings.

## **Options:**

**Used books, save 25%:** Great option for books that you think you will want to keep. These copies go fast, so order early before they sell out.

**Rental books, save up to 80%:** Fantastic option, especially for general ed classes that you will not want to keep as reference in your later career. Rented books can be highlighted in, as long as there is no water or spinal damage to the book.

**Digital Books, save up to 60%:** Great cost and weight saver. Robust study and note-taking tools built into the software. Becoming more popular every year.

## **MavReserve Program:**

**Every year we provide more than \$20,000 in textbooks to the library for the MavReserve Program.**

**These are commonly used textbooks that can be checked out for two hours at a time.**

**The MavReserve program can provide a bridge for students who are unable to purchase all of their textbooks at once so that they don't fall behind in the class.**

**See the library for the complete list of what books are available this semester.**

## **Price Match:**

**We match prices with BN.com and Amazon.com.**

**No third party or marketplace sellers. For example, we will not match a listing that shows “Sold By XYZ Books, Fulfilled by Amazon”. Those are people using the Amazon or BN.com marketplaces to sell their own copies.**

**The match has to be for the exact same item and condition.**

**We are not able to match digital books, only physical copies.**

**Other exclusions apply, ask for details.**

**If you find a match that you want to verify, you can email us the link at [sm373@bncollege.com](mailto:sm373@bncollege.com).**
